

Solution Code

```
#include <iostream>
Using namespace std;

Int main()
{
    Double first, second, product;

    Cout << "Enter 1st number :: ";
    Cin >> first;
    Cout << "\nEnter 2nd number :: ";
    Cin >> second;

    Product = first * second;

    Cout << "\nProduct of Two Numbers [ "<<first<<" * "<<second<<" ] = " << product<<"\n";

    Return 0;
}
```
