

# Solution Code

```
#include<iostream>
```

```
Using namespace std;
```

```
Int main()
```

```
{
```

```
    Int a;
```

```
    Cout<<"Enter any positive number :: ";
```

```
    Cin>>a;
```

```
    If(a%2==0)
```

```
    {
```

```
        Cout<<"\nThe Entered Number [ "<<a<<" ] is EVEN Number.\n";
```

```
    }
```

```
    Else
```

```
    {
```

```
        Cout<<"\nThe Entered Number [ "<<a<<" ] is ODD Number.\n";
```

```
    }
```

```
    Return 0;
```

```
}
```
