

Solution Code

```
#include<iostream>
Using namespace std;

Int main()
{
    Int l,no, first=0, second=1, next;

    First=0;
    Second=1;

    Cout<<"How many terms u want to Display :: ";
    Cin>>no;

    Cout<<"\nThe Fibonacci series for [ "<<no<<" ] terms are :: \n\n";
    For(i=0; i<no; i++)
    {
        Cout<<" "<<first<<" ";
        Next = first + second;
        First = second;
        Second = next;
    }

    Cout<<"\n";

    Return 0;
}
```
