

Solution Code

```
/* C program to convert Total days to year, month and days */
```

```
#include <stdio.h>
```

```
int main(void)
```

```
{  
    int d,y,m,nd;  
    printf("Enter number of days :: ");  
    scanf("%d",&d);  
    y=d/365;  
    d=d%365;  
    m=d/30;  
    nd=d%30;  
    printf("\n%d years, %d months, %d days\n",y,m,nd);  
    return 0;  
}
```
