

Solution Code

```
/* C Program to calculate AREA of a rectangle */  
  
#include<stdio.h>  
#include<conio.h>  
  
int main()  
{  
    int l,b;  
    int area;  
    printf("Enter the length of the rectangle :: ");  
    scanf("%d",&l);  
    printf("\nEnter the breadth of the rectangle :: ");  
    scanf("%d",&b);  
    area=l*b;  
    printf("\nThe area of a rectangle is %d \n",area);  
    return 0;  
}
```
