

Solution Code

```
/* C Program to find Length of String without using strlen function */
```

```
#include<stdio.h>
```

```
int main()
```

```
{
```

```
    int i,count=0;
```

```
    char ch[50];
```

```
    printf("\nEnter Any string :: ");
```

```
    gets(ch);
```

```
    for(i=0;ch[i]!='\0';i++)
```

```
    {
```

```
        count++;
```

```
    }
```

```
    printf("\nLength of String [ %s ] is :: [ %d ].\n",ch,count);
```

```
    return 0;
```

```
}
```
