

Solution Code

```
/* C Program to Find Length of String using strlen function */
```

```
#include<stdio.h>
```

```
#include<string.h>
```

```
int main()
```

```
{
```

```
    char str[50];
```

```
    int length;
```

```
    printf("\nEnter any string :: ");
```

```
    gets(str);
```

```
    length = strlen(str);
```

```
    printf("\nLength of string [ %s ] :: [ %d ]\n",str,length);
```

```
    return 0;
```

```
}
```
