

# Solution Code

```
/* C Program to Concatenate Two Strings using strcat() Function */
```

```
#include<stdio.h>
```

```
#include<string.h>
```

```
int main()
```

```
{
```

```
    char ch1[50]="Codez";
```

```
    char ch2[50]="Club";
```

```
    printf("\n 1st String : [ %s]",ch1);
```

```
    printf("\n\n 2nd String : [ %s ]",ch2);
```

```
    strcat(ch1,ch2);
```

```
    printf("\n\n Concatenated String is : [ %s ]\n",ch1);
```

```
    return 0;
```

```
}
```
