

# Solution Code

```
/* &nbsp;   C Program to Count Number of Characters in a string */
```

```
#include<stdio.h>
```

```
int main(){
```

```
    char str[20];
```

```
    int i=0;
```

```
    printf("\nEnter the string: ");
```

```
    gets(str);
```

```
    while(str[i]!='\0')
```

```
        i++;
```

```
    printf("\nLength of [ %s ] is [ %d ]\n", str, i);
```

```
    return 0;
```

```
}
```
