

Solution Code

```
items = []  
for i in range(100, 401):  
    s = str(i)  
    if (int(s[0])%2==0) and (int(s[1])%2==0) and (int(s[2])%2==0):  
        items.append(s)  
print( ",".join(items))
```
