Solution Code

```python
import textwrap
sample_text = '''
    Python is a widely used high-level, general-purpose, interpreted,
    dynamic programming language. Its design philosophy emphasizes
    code readability, and its syntax allows programmers to express
    concepts in fewer lines of code than possible in languages such
    as C++ or Java.
    '''
print()
print(textwrap.fill(sample_text, width=50))
print()
```
